

MorTec SOFT

The joint from the tube

- Alternative joint filler with fine grain structure
- For elastic, stress-reducing joints
- For bonded or spot-fixed large-format outdoor coverings

Colours

matt anthracite, matt sand beige, matt stone grey, matt cement grey

Area of application

Indoor and outdoor. Walls and floors.

Silicone-based joint filler for forming elastic, stress-reducing joints for ceramic, natural stone and cast stone coverings without format restrictions for drained outdoor coverings. No unsightly expansion joints, as the same joint filler can be used for covering joints as well as for connection and expansion joints.

Can only be used in conjunction with drainage systems: AquaDrain® EK, TerraMaxx® DS, Watec® Drain KP+

Note

The information in our safety data sheets must be observed.
For commercial users only!

Additional information

Take care when handling: avoid the formation of dust and release into the environment.

Dispose of the container and its contents in a solidified state in accordance with applicable local, regional, national and international regulations.

Technical data according to ARDEX quality standard

Consumption

Consumption

12 Running metres, per cartridge for 5 x 5 triangular joints
3 Running metre, per cartridge for 10 x 10 joints
24 Running metres, per cartridge for 5 x 5 triangular joints
6 Running metres, per cartridge for 10 x 10 triangular joints

Consistency

Paste-like

Processing temperature

+5°C to +35°C

Resistance to temperature

-40°C to +180°C

Practical stretch capacity approx.

25 % of joint width

Application properties

Skin formation time approx.

10 Minute(s)
